

### About Alliance Integrated Technology

Alliance Integrated Technology, a comprehensive end-to-end innovative technology solutions provider for midsize and large corporations. We have a unique focus on high performance computing and today's massive unstructured data.

Alliance has a innovative comprehensive product portfolio for Big Data and Cloud applications, which we are able to optimize to support any data-intensive environment, including:

- Aerospace/Defense
- Government
- Higher Education
- Life Science Research
- Media & Entertainment
- Transportation
- Oil & Gas Research

Alliance Integrated Technology creates innovative infrastructure solutions supporting multiple verticals: Media & Entertainment, High Performance Computing, education and national laboratory research facilities.

To stay ahead of the game, you need the right team. As your partner, Alliance Integrated Technology will work every day to diligently provide you with the expertise, solution and support to accelerate your success. Below is a sample of the technology partners we represent.
